INTERNSHIP

Full Stack Intern | EDU TANTR | Bangalore | Jun 2024 – Jul 2024

- Built 3 full-stack web applications independently a Resume Builder, Portfolio Site, and Student Result Dashboard using React, Node.js, Express.js and MongoDB.
- Developed and integrated REST APIs for portfolio backend, handling data flow between frontend and database.
- Designed and implemented responsive UI components using React and Tailwind CSS, focusing on user experience across all 3 projects.

CERTIFICATIONS

- Full Stack Developer Bootcamp:** GeeksforGeeks (2025) MERN Stack with hands-on project development.
- Python Programming:** Infinity Computer Learning Center Completed course with certification.

PROJECTS

Project 1 : Business Decision Impact Analysis

- Built an ensemble ML model using XGBoost, CatBoost and Extra Tree Regressor to predict business decision outcomes, achieving 85-90% accuracy.
- Compared multiple algorithms and combined them using ensemble techniques to improve prediction reliability over single-model baselines.

Project 2 : Product Expiry Alert System | [Live Demo](#) | [Github](#)

- Developed a full-stack MERN application to track and manage product expiry dates with automated real-time alerts.
- Built REST APIs using Node.js and Express.js, integrated MongoDB for product data storage, and designed responsive UI using React and Tailwind CSS.
